

PREMIUM MECHANICAL

FM-530

(Choose from 3 inlet sizes and either gallon or litre model.)

Use with gasoline (alcohol blends E15), diesel fuel (biodiesel blends B20) and kerosene.

The aluminum **FM-530** Mechanical Meter fits virtually all mounting applications. The unique 90° incremental rotation of both the inlet and outlet ports make for easy installation and reduces the need for extra elbows. The **FM-530** is calibrated at the factory for diesel fuel. Metric models of this popular meter are available offering measurement in litres with BSP threads.

- Field calibrate to measure other fluids or to adjust for differences in viscosity and flowrates.
- Flow range of 5 to 30 GPM (19 to 114 LPM).
- Available with 3/4, 1 or 1-1/2 inch inlet/outlet.
- Optional Pulse Kit available, **see Accessories**.
- Built-In Strainer.
- Push-Button reset, easy-to-read display.
